About prepa...

Is it ok if Kike limits his Q's to:

- 1- What does the agreement mean for the people of PR?
- 2- At the end of the day... Is it the best deal we can get?
- 3- What must happen to see rates go down?
- 4- When could it happen?
- 5- When do you see a transformation in prepa?
- 6- Can you explain what is a fixed Transition Charge?
- 7- If ratepayers had to pay PREPA's full contractual debt service when due..., the current rate would be considerably higher?
- 8- Do you need legislature approval?

Number 1 needs thought and we should get it on one page how we want to describe this. No one has done that yet
